

Personal Care Products & Cosmetics

Personal care products and cosmetics are generally considered “totally inedible” (*aino raooi le'achilas kelev*), and, therefore, according to the letter of the law, **personal care products are permitted for use even if they contain *chametz***. However, in the categories discussed below, it is commendable to use only those cosmetics that are *chametz*-free.

SICHA KESHTIA - There is a *halachic* opinion from the *Rishonim* that applying products topically is considered ingesting (*sicha keshtia*). Typically, we are not stringent in this matter and therefore, one may apply non-kosher products on the skin. However, due to the stringent approach toward *chametz* on Pesach (*meshum chumra dePischa*) some avoid using *chametz* in this fashion and are therefore meticulous in using only *chametz*-free cosmetics.

LIPSTICK AND TOOTHPASTE - Due to the stringent approach toward *chametz* on Pesach (*meshum chumra dePischa*) it is advised to be stringent with regard to cosmetics and personal care products that are applied to the lips or that are used orally. Therefore, it is recommended to avoid using lipsticks and toothpastes that contain *chametz*.

DENATURED ALCOHOL - Denatured alcohol is inedible alcohol that can be derived from either *chametz* or non-*chametz* sources. It is commonly found in deodorants, perfumes, and mouthwashes. Although denatured alcohol is inedible, it could conceivably be distilled back to an edible state, and, for this reason, many *Poskim* (Rabbinic authorities) are of the opinion that denatured alcohol is considered edible and would be problematic if the alcohol was derived from *chametz*. Therefore, one must ensure that products used on Pesach do not contain denatured alcohol. In order to avoid this issue, ensure that the product in question is on a reliable “*Chametz-Free*” list or contact the COR.

Alcohol that contains *chametz* could be referred to in any of the following ways:

- | | |
|----------------------|-----------------------|
| 1. Ethyl Alcohol | 5. SD Alcohol |
| 2. Ethanol | 6. SDA or SDA Alcohol |
| 3. Denatured Alcohol | 7. Alcohol |
| 4. Alcohol Denat. | |

The following are NOT sourced from *chametz*:

- | | |
|----------------------|--------------------|
| 1. Benzyl Alcohol | 4. Methanol |
| 2. Cetyl Alcohol | 5. Stearyl Alcohol |
| 3. Isopropyl Alcohol | |

Personal Café Products

THE PRODUCTS LISTED BELOW ARE **CHAMETZ-FREE** (UNLESS OTHERWISE NOTED)
